

Press Release #3
ProSleeve Golf

April, 2006

ProSleeve Golf, LLC, of Littleton, CO, announced an agreement with Speed Stik of Omaha, Nebraska, to cross-sale each other's product.

Brian Egan, President of ProSleeve Golf, stated that "the two companies have a lot of synergy and both companies products appeal to the golfer that takes practice seriously. The agreement allows Speed Stik to cross sell "The ProSleeve" post infomercial sales campaigns, as an add-on item.

The ProSleeve is a "triggered golf ball shag tube" designed to make practice smarter and faster. The trigger allows the golfer to dispense one or multiple golf balls and then retrieve them with ease.
